## Reč dobrodošlice

Hteli smo da Vam poželimo srdačnu dobrodošlicu na XXIV Internacionalni Kongres kliničke kardiologije i srčane slabosti, koji se održava u hotelu Crowne Plaza u Beogradu, 27. i 28. marta 2026. godine. Ponosni organizatori CardioS-a 2026 su i ove godine Udruženje za srčanu slabost Srbije, Medicinski fakultet Univerziteta u Beogradu, Srpska Akademija nauka i umetnosti, i Evropsko Udruženje za srčanu insuficijenciju.

CardioS 2026 ove godine donosi ekskluzivnu novinu, jer će se u isto vreme održati prvi Samit istočno evropskih Udruženja kardiologa, u okviru Evropskog Udruženja kardiologa. Akademik Petar M. Seferović, kao Predsednik Komiteta Evropskog Udruženja kardiologa za Istočnu Evropu, ponovo u Beogradu organizuje veliki evropski sastanak. Samit istočno evropskih Udruženja kardiologa je izuzetno značajan za ovaj deo Evrope, jer prvi put formalno okuplja kardiološka Udruženja istočne Evrope i blisko ih povezuje sa aktivnostima Evropskog Udruženja kardiologa. Samit će takođe predstaviti plan za dalji kardiološki razvoj regiona, kroz jedinstvenu publikaciju Kompendijum istočno evropskih Udruženja kardiologa. Predsednik Evropskog Udruženja kardiologa, Profesor Thomas Luscher i izabrana Predsednica Evropskog Udruženja kardiologa, Profesor Cecilia Linde će prisustvovati Samitu.

Program CardioS-a 2026 će kroz dva dinamična dana prikazati poslednja dostignuća evropske i svetske kardiologije, kao i najnovije strategije u lečenju kardiovaskularnih oboljenja i srčane slabosti. Interaktivan i klinički orjentisan Program CardioS-a 2026 će omogućiti slušaocima sticanje savremenih kardioloških znanja, neophodnih za uspešno lečenje njihovih bolesnika. Multimedijalni pristup koji će predstaviti vrhunski evropski kardiolozi će omogućiti plodnu i korisnu diskusiju.

Mnogi od značajnih evropskih projekata, kojima rukovode srpski kardiolozi, su završeni i njihovi rezultati će biti prikazani na CardioS-u 2026. U njih spadaju Evropska studija srčane slabosti, Ekspertski centri za lečenje srčane slabosti u srednjoj i istočnoj Evropi, kao i Evropski megaprojekat u prevenciji i ranoj detekciji srčane slabosti STRATIFYHF. Takođe, u cilju poboljšanja praktičnih veština učesnika Kongresa, na CardioS-u 2026 će biti održane dve radionice za ehokardiografiju i magnetnu rezonanciju srca.

Ove godine plenarno predavanje na CardioS-u 2026 će održati Predsednica Evropskog Udruženja kardiologa u mandatu 2026-2028, Profesor Cecilia Linde. Ona je takođe ovogodišnji dobitnik Zlatne medalje Udruženja za srčanu slabost Srbije i počasni gost Kongresa.

Zdravstveni Savet Srbije je akreditovao CardioS 2026 sa 13 bodova za predavače i 8 bodova za učesnike Kongresa.

Sigurni smo da će CardioS 2026 ispuniti sva Vaša očekivanja, pa Vas pozivamo da i ove godine učestvujete u njegovom radu. Koristimo ovu priliku da Vam se još jednom najsrdnije zahvalimo na izvanrednoj saradnji i podršci.

Odbora CardioS-a 2026*

We would like to cordially welcome you to the XXIV International Congress of Clinical Cardiology and Heart Failure, CardioS 2026, which is taking place at the Crowne Plaza Hotel, Belgrade, on March 27st-28th, 2026. By proud tradition, CardioS 2026 is jointly organized by the Heart Failure Society of Serbia, Faculty of Medicine, Belgrade University, Serbian Academy of Sciences and Arts, and Heart Failure Association of the European Society of Cardiology.

Continuing along the line of extraordinary novelties, this year CardioS will host the first ESC Summit of Eastern European Cardiology Societies, on March 27th, 2026. Academician Petar M. Seferović as a Chair of the ESC Task Force for Eastern Countries brings again an important meeting in Belgrade. This Summit represents a landmark moment for European cardiology, as the first event of its kind, reflecting a strategic commitment of Eastern Countries to strengthen collaboration, and amplify their scientific and professional voice within the ESC. In addition, the Summit will highlight a roadmap of further development of Eastern Cardiology Societies through the work on the unique publication, the Compendium of Eastern Countries Cardiology Societies. Both ESC President Professor Thomas Luscher and ESC President-Elect Professor Cecilia Linde, will be present at the Summit.

Two day dynamic scientific Program of CardioS 2026 will feature the latest progresses in European and global cardiology, as well as the most important new strategies in treatment of cardiovascular disease/heart failure. This will be presented at the interactive and clinically-oriented means providing to the participants updated cardiology knowledge, essential for the optimal treatment of their patients. Dynamic and direct approach, fostered by multimedia presentations will enable participants to apply the acquired information instantly in the clinical practice.

Many of the significant projects in European cardiology, led by Serbian cardiologists, came to fruition: European HF Survey, Central Eastern Europe QCC project and STRATIFYHF megaproject, and these results will be presented at CardioS. To improve the participant's clinical skills, two training sessions will be organized: echocardiography workshop, and cardiac magnetic resonance workshop.

This year keynote lecture of CardioS 2026 will be delivered by the ESC President-Elect Professor Cecilia Linde. Professor Linde is also the Winner of this year's Gold Medal of the Serbian Society of Heart Failure and the honorary guest of the Congress.

The Serbian Medical Chamber accredited CardioS 2026 with 13 CME points for the lecturers and 8 CME points for participants.

We are convinced that CardioS 2026 will meet all expectations by providing an in-depth insight into the controversies in European cardiology/heart failure, brilliantly enhancing valuable exchange of experiences.

# Najvažnije činjenice o Udruženju za srčanu slabost Srbije

## The most important facts about the Heart Failure Society of Serbia

Posle intenzivne aktivnosti na polju borbe protiv srčane slabosti, koja je započeta 2008. godine, u Republici Srbiji se osetila potreba za stvaranjem nacionalnog Udruženja koje bi se bavilo isključivo srčanom slabošću. Udruženje za srčanu slabost Srbije je osnovano u aprilu 2011. godine na osnivačkoj Skupštini.

- **Misija:** Unapređenje prevencije, dijagnostike, lečenja i rehabilitacije bolesnika sa srčanom slabošću. Ovo se postiže kroz edukaciju zdravstvenih radnika, podršku bolesnicima, unapređenjem naučno istraživačkog rada i saradnjom sa domaćim i inostranim institucijama. Neophodno je primeniti multidisciplinarnu saradnju, u skladu sa savremenim evropskim i svetskim smernicama.

- **Vizija:** Stvaranje okruženja u kome su srčana slabost i njene posledice prepoznate na vreme i efikasno prevenirane i lečene. Neophodan preduslov su obrazovanje stručnjaka, podizanje svesti javnosti i podrška bolesnicima i njihovim porodicama.

- **Ciljevi:**
  - Promocija zdravih životnih navika
  - Razumevanje terapijskih principa i primene lekova
  - Edukacija bolesnika i njihovih porodica
  - Podizanje svesti javnosti o značaju bolesti
  - Saradnja sa stručnim organizacijama i zdravstvenim radnicima
  - Edukacija zdravstvenih radnika

# Pet razloga da ne propustite CardioS 2026

## Five good reasons not to miss CardioS 2026

1

**Plenarno predavanje i dodela zlatne medalje Udruženja za srčanu slabost Srbije Profesorki Ceciliji Linde**, Predsednice Evropskog Udruženja kardiologa u mandatu 2026-2028. Naslov plenarnog predavanja je Resinhronizaciona terapija: primer uspeha u lečenju srčane slabosti.

**Keynote lecture by Professor Cecilia Linde, ESC President-Elect and Award Ceremony of handling Heart Failure Society of Serbia Gold Medal to Professor Cecilia Linde.**

The title of keynote lecture: Cardiac resynchronization therapy: a heart failure therapy success story.

2

### **Samit kardioloških udruženja Istočne Evrope.**

Evropsko Udruženje kardiologa je formiralo Komitet za Istočnu Evropu (predsednik Akademik Petar M., Seferović) koji će imati svoj godišnji sastanak u Beogradu 27 marta 2026 godine. Pored Predsednika (Thomas Luscher) i izabrane Predsednice (Cecilia Linde) Evropskog Udruženja na njemu će učestvovati i predsednici 15 Udruženja kardiologa iz Istočne Evrope. Ovaj istorijski sastanak, koji se u Evropskom Udruženju održava prvi put, će omogućiti bolju saradnju među kardiološkim udruženjima Istočne Evrope kao izdavanje jedinstvene knjige, Kompendijuma Istočne Evrope.

### **First ESC Eastern Countries Summit 2026.**

The core mission of the ESC is to reduce inequalities in the development of cardiology societies across Europe. To solve this discrepancy the ESC Task Force on Eastern Countries was formed (Chairperson Academician Petar M. Seferović), which will have its first meeting, the First ESC Eastern Countries Summit 2026 in Belgrade on March 27th, 2026. This is a landmark moment for European cardiology as the first event of its kind, strengthening the European collaboration and producing the roadmap of further development by publication of the Compendium of Eastern European Cardiology Societies. Both ESC President (Thomas Luscher) and ESC President-elect (Cecilia Linde) will be present, as well as the Presidents of 15 Eastern European cardiology societies.

Cecilia Linde is a Professor in Cardiology at Karolinska University Hospital and the Karolinska Institutet in Stockholm, Sweden. She was previously head of Cardiology at the Karolinska University Hospital. Her research focuses on devices such as cardiac resynchronization therapy (CRT) and epidemiology in heart failure. She was the principal or co-principal investigator of international Randomised controlled studies on cardiac resynchronisation therapy CRT for heart failure such as the MUSTIC, REVERSE, MIRACLE-EF and in cardiac contractility modulation trials such as the CCM HFpEF study. She has previously been the director of the Swedish Pacemaker and ICD registry. She is currently the President Elect of the European Society of Cardiology (ESC) 2024-2026 with special focus on National Societies of Cardiology and Advocacy. Professor Linde contributed to many guidelines of European Heart Rhythm Association and Heart Failure Association. She has authored over 300 papers, reviews and editorials covering a wide variety of topics and is the executive editor for the topic heart failure of European Heart Journal.
